

IEC

IECQ

IEC QUALITY ASSESSMENT SYSTEM (IECQ),

covering Electronic Components,
Assemblies, Related Materials and Processes

Established in 1991 by the IECQ-13 member nations

IECQ Certificate of Conformity

For the production of **Electronic Components & Processes** Materials with the IECQ

Product Description:

Product Name:

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

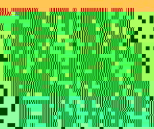

Product Name: **Electronic Components & Processes** Materials with the IECQ

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

Assembly and test of integrated circuits used for electronic and electrical products

Issued by the Certification Body: **SGS-CSTC Standards Technical Services Co., Ltd.**

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.

The product is produced in accordance with the IECQ-13 member nations' requirements for the production of electronic components and processes.
